D. Fill Out The Personal Analysis (PA)

PLEASE - fill out the Personal Analysis before you begin. This will allow you to identify your goals and to create a support team. Accountability is key to your success. It is important that you weigh and measure on the morning you start (never measure or weigh at night). You will then measure after each of your 48-hour detox days, in the morning. This is the most accurate way for you to track your progress on the protocol.

Please click the link below to print out the PA.

Step ⑤ Additional Resources

Introduction to the Peer Reviewed Clinical Study for Protein Pacing® and Intermittent Nutritional Fasting™. This study proved you can restore Metabolic Health by releasing Visceral Fat and restoring your Metabolic Function, allowing you to reclaim your health, and Live your Best Life!!

88% of Americans are metabolically unhealthy - Metabolic Syndrome occurs when people experience 3 or more of these co-factors; Elevated Sugars, Elevated LDL, Elevated Blood Pressure, Elevated Triglycerides, overweight or obesity, according to the Center for Disease Control (CDC)

THE R2M PROTOCOL DRAMATICALLY LOWERED:

- Blood Pressure
- Sugars
- LDL - (bad cholesterol)
- Blood Pressure
- Triglycerides
- Weight loss (average loss in 30 days - 16lbs)
- And reduced Visceral (toxic) fat by 33%

Dr. Arciero reveals the incredible scientific proof that this protocol will change the way we approach diet, nutrition, and exercise.

"I have been looking for the magic bullet to maximize our quality-of-life potential for 35 years, and now I have found it" - Dr. Paul Arciero

"You do not know how bad you feel, until you realize how good you can feel"
- Peter Greenlaw
